

Some Books on Data Visualization

John C. Hart

Department of Computer Science
University of Illinois at Urbana-Champaign

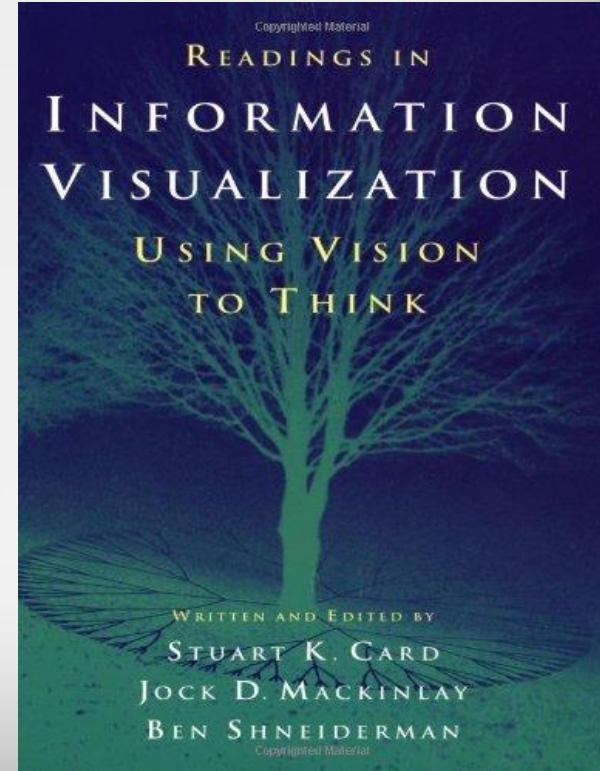

Books

- The Visual Display of Quantitative Information
- Visual Explanations
- Envisioning Information
- Edward Tufte, Yale
- Principles of graphic design applied to data visualization
- Primarily static, printed formats

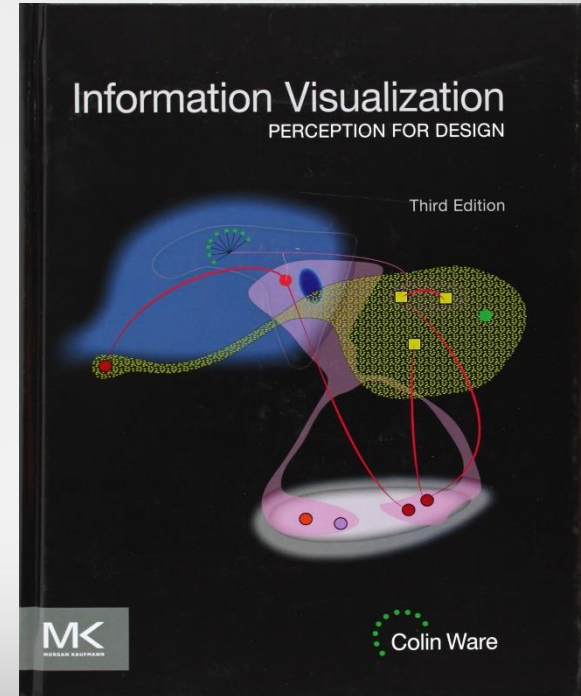

Books

- Readings in Information Visualization
- Stuart Card, Xerox PARC
- Jock Mackinlay, Xerox PARC
- Ben Schneiderman, U. Maryland
- Curated collection of research papers

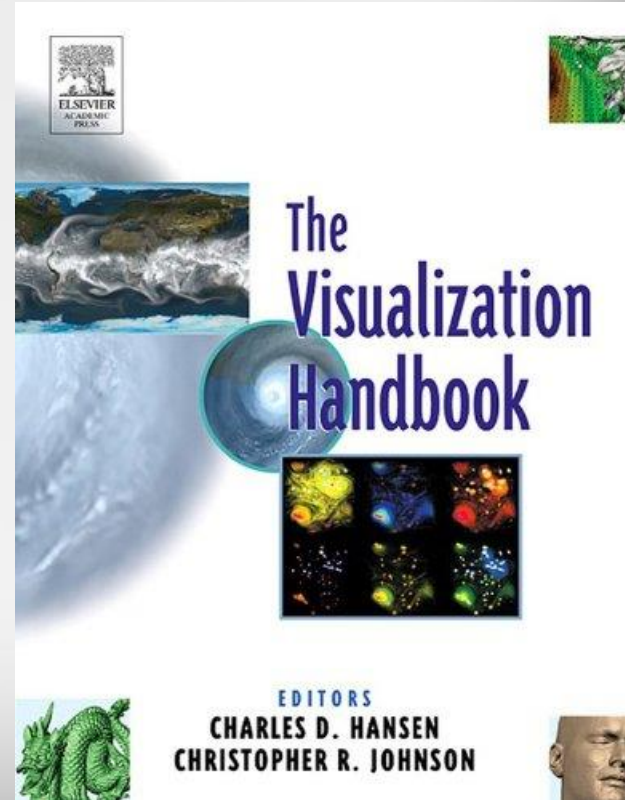

Books

- Information Visualization:
Perception for Design
- Colin Ware, U. New Hampshire
- Perceptual principles applied
to data visualization
- Focus on user interaction

Books

- The Visualization Handbook
- Chuck Hansen, U. Utah
- Chris Johnson, U. Utah
- Scientific Visualization
- Curated chapters

Books

- Visualization Analysis & Design
- Tamara Munzner, U. British Columbia
- Covers both scientific and information visualization
- Includes task analysis
